

ADIL KM

Full Stack Developer

+91 9847141543 | adilkm.work@gmail.com | Kerala | GitHub/Adil-km | LinkedIn/adil-km | Portfolio

PROFESSIONAL SUMMARY

Full-stack developer with 1+ years of experience building web applications using **React.js, Next.js, Python and Django**. Experienced in developing **REST APIs, database-driven applications, responsive interfaces and AI powered tools**, with a focus on performance, security and production-ready systems.

SKILLS

Languages: JavaScript, TypeScript, Python

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, Django, FastAPI, REST APIs

Databases & Cloud: MongoDB, PostgreSQL, MySQL, Firebase, Cloudinary

Tools: Git, GitHub, Vercel, Render

EXPERIENCE

Full-Stack Developer & Co-Founder | DeVoc

July 2025 – Present

- **Built and launched** the official DeVoc website using Next.js, implementing responsive interfaces and production ready frontend workflows and achieving **95+ Lighthouse scores** across Performance, Accessibility, Best Practices and SEO. **Integrated** the Google Sheets API to automate registration and form submissions.
- Contributed to the development and operations of a growing developer academy, including curriculum development and student onboarding.
- **Mentored 15+ students** through hands-on web development projects, code reviews and programming sessions.

PROJECTS

NCC Web Portal | Django, PostgreSQL, Python, JavaScript, Cloudinary

GitHub

- **Developed** a centralized Django and PostgreSQL portal for cadet administration, training schedules and attendance management across college-level NCC units.
- **Engineered** batch-based attendance marking and credit hour calculation with a custom **role-based access control** system for administrative permissions.
- **Integrated** Cloudinary for media storage and delivery and configured WhiteNoise for static asset serving and caching in production.

VideoGetter | Next.js, TypeScript, React, Tailwind CSS, Node.js

Live Demo

- **Architected** a serverless, stateless application using Next.js App Router and TypeScript for media retrieval across YouTube, Instagram and Facebook.
- **Engineered** a provider registry with API-key rotation, rate-limit handling and scraper fallbacks to improve reliability across third-party endpoints.
- **Built** a streaming proxy that pipes media directly from CDNs to clients while handling CORS and validating resolved IP addresses to reject private network targets.

FlashNote | Python, Flask, JavaScript, HTML, CSS

Live Demo | GitHub

- **Developed** an AI-powered study tool that processes PDF, image, and text inputs and generates Anki-compatible flashcards with automated CSV export.
- **Automated** content extraction and flashcard generation, significantly reducing manual preparation time while improving frontend validation and responsive workflows.

EDUCATION

B.Voc in Software Development

Farook College (Autonomous), Calicut

July 2024 – June 2027

CGPA: 8.63

CERTIFICATES

Programming, Data Structures and Algorithms Using Python

Certificate Mar 2026

The Joy of Computing Using Python

Certificate Nov 2025

Advent of Cyber 2025

Certificate Dec 2025
